

Services

I offer a warm, welcoming and safe environment to all children in my care.

Our three storied home is situated just 3min walking distance from the Stony Stratford High Street and offers spacious play rooms on both ground and first floor.

It is child orientated with safety glass, plug covers, stair gates etc. and meets OFSTED and Fire Safety regulations.

Children also play outside in our fully enclosed garden. Conveniently, a small playground is situated right outside the garden gate and a larger one just two minutes walk away.

I offer childcare from Mo – Fri. 7:30am – 6pm, 48 weeks per year and during most school holidays.

Saturday cover is available by prior arrangement. I offer school and pre-school drop off's and pick ups as per arrangement with parents.

My services include healthy meals, snacks and drinks throughout the day, visits to local playgroups and library as well as trips and outings.

Necessary childcare equipment such as cots, baby bouncers, car seats and prams are also provided.

Formula milk and nappies for babies however must be provided by parents.

I offer a wide range of activities to all children in my care such as playing with play dough, clay and with sand and water.

We also look at books and learn about different people and cultures.

We learn to recognise letters, numbers and words. We copy the stories in our play and best of all we love to cuddle up together and listen to stories.

We paint, draw, pretend to write, cut out, and glue. We make collages and prints. We learn to use scissors and to be creative.

We sing songs and make instruments and make music with them. We listen to music from different countries and we dance and learn new songs.

We make friends and learn about sharing, taking turns and respect people. We learn to mix with children who may be older or younger than us and we learn about the rules and how to say 'Sorry' if we upset someone.

We go to the Parks and Play Centres and we visit the Library and local Toddler Groups.

We find out about our local environment and to be safe when we cross the roads.

We go on Nature Walks and learn about the seasons.

We go to the shops to buy fresh vegetables for our lunch which we can help to prepare. We share meals together and try foods from different cultures. We celebrate birthdays and festivals from around the world.

We learn about eating healthy food and keeping our bodies healthy. We learn about hygiene and how to wash our hands after using the toilet and before touching food.

We play outside, run and jump, climb, ride and explore.

We grow things in the garden and learn how to care for them.

We dig and find all kinds of animals and insects in the garden. We use our imaginations...

We learn that after we have done all this, our bodies will need a rest to recover!

There are many play and learning activities to suit all needs, ages and stages of development for both indoor and outdoor play. These include Lego, Brio train sets, puzzles, games, craft materials, and dressing up clothes, cars and garage, dolls and doll accessories and musical instruments.

A wide range of books is also available.

For younger children and babies there are play mats, play gyms, shape sorters and many other things.

Outside, the garden is fully enclosed with a lockable gate and has been safety approved.

I have a covered sand-pit, water tray, paddling pool, ride on cars and tricycles as well as a child-sized table and chairs.

My people carrier car is insured for business use and fully equipped with three point seat belts and various sizes of comfortable child and baby seats.

Please Contact Me to discuss your childcare needs further.
